

Email from Jeffrey Cheng

Admitted to Princeton University, Class of 2025

Majoring in Computer Science

To the Director Elizabeth Mabrey—April 6, 2021

12th Grade

5th Grade

JEFFREY CHENG

Jeffrey joined SR since his 5th grade, till 12th grade. He has held instructor position at SR as well as important developer role in our SR Development Group.

I just wanted to let you know that I was just accepted to Princeton! I will probably commit there, and I just wanted to thank you for all the years you've been helping me at Storming Robots.

There's no way I could envision my life from 5th grade to now without Storming Robots because it's always given me something to look forward to during the week. It's given me all the information, advice, and experiences that I could ever dream of, both in robotics and life in general. There's no way I would be who I am without you, Dennis, and Storming Robots.

*Thank you again,
Jeffrey Cheng*
